Dealy has now settled down to business in his new headquarters where the best stock in the city is kept. Free lunch every day, and all old patrons of the place are welcome to the new club room.

For Banquets, Dinners and Parties use Eclipse Extra Dry, it is equal to any and superior to most imported brands, and the only natural California Champagne in the market.

FIRE AND HOMICIDE.

Luning Wiped Out—Killing in Bodie.

The train men who arrived last evening from the C. & C. report that Luning was totally destroyed by fire on Tuesday night, and that just as the stage left Bodie, the town was in a ferment of excitement over the killing of two men. The driver's story was that a fire broke out in the city, destroying a block and that while the fire was in progress one man walked up behind another and placing the muzzle of his pistol against his back fired three shots. The balls passed clear through, and the man fell dead in his tracks. One of the balls entered the stomach of a man in front of the man who was killed and he dropped dead also. Another ball hit a third party in the leg. The excitement was running high when the stage left, and lynching was talked of.

THE LORD SENT 'EM.

Extraordinary Wind-fall to a Carson Farmer.

The other day a Carson clergyman rose in the morning and discovered that there were no potatoes in the house. Being an admirer of murrheys as a diet article, he went down to the various grocery stores that advertise in the APPEAL and found that they were all just out. Returning home he informed his good wife of the fact and was considerably annoyed. She, of a more cheerful disposition, replied that he need not worry about it as the Lord would provide the spuds. "It's all very well to talk about the Lord providing things, but I never knew the Lord to lay a sack of potatoes down by my gate, unless I went somewhere and paid cash for them. At least that's my experience."

"The Lord has many different ways of providing for his servants," was the reply, "and he will not forget us."

"But the Lord don't perform the miracle of making potatoes grow up in front of a man's gate, not in these degens—"

"Whoa, there; heop-la; go it, John; heop fast nag," came in a chorus of boyish voices from the outside. The parson rushed to the window and saw a crowd of youngsters cheering at a Chinese vegetable wagon and encouraging the horse to run faster. The wagon ran foul of a post at the corner of the street and off went the wheel. A moment later a sack of potatoes came flying over the dash board and fell at the parson's gate.

"A heathen brought this sack," quoth the Divine, but he, comes as an instrument of the Almighty," and he lugged the sack indoors breathing a fervent prayer of thanks.

"I told you the Lord would provide," said the housewife, and while they were breaking the bread of thankfulness the heathen vegetable dealer came in and threatened to cut up the family with a hatchet if the price of the spuds were not forthcoming. The preacher paid up, and was obliged to pay just twice the market price.

Business Notes.

Sheriff Swift has just received a fine assortment of New York hand-cuffs, which fasten on under the cuff in such a way that they are not noticed. Persons in good standing, who expect to be judged before the Fall campaign is over, will do well to examine some of these bracelets.

Mr. Crawford, of the U. S. Mint, has been turning out some fine gold twenty pieces of superior workmanship. If you want to use good reliable money this is the place to patronize before looking elsewhere.

Mr. White, the Postmaster, is selling fifty two-cent stamps for a dollar. He will not be undersold by anybody in the State.

Sam Wright has just received an invoice of rose wood coffins, cut right from genuine moss rose bushes of the growth of 1860. They have a patent lid that can be kicked off on the resurrection day as soon as Gabriel blows his horn. First come first served.

Not a particle of calomel or any other deleterious substance enters into the composition of Ayer's Cathartic Pills. On the contrary they prove of special service to those who have used calomel and other mineral poisons as medicines, and feel their injurious effects. In such cases Ayer's Pills are invaluable.

ROUND ABOUT TOWN.

The Indians will now work to get a ticket to the circus.

Miss Nellie Musgrove, of this city has been appointed teacher of the Franktown school.

Night before last it was rumored that Hawthorne was burned. Yesterday did not confirm the report.

The break in Norcross don't begin to be such a break as Cohn has made in dry goods. He has smashed the whole line.

Drugs, medicines, perfumeries, toilette articles and all kinds of fancy articles at Walter Chedie's drug store in the Morton House block.

Fulljames, the pugilist, has been worsted by Dempsey. He got so full of jams in the nose that the sponge went skyward in the 22d round.

Fulsome & Dunn have a lot of wheat on hand which they are offering at \$2 1/2 per 100lb. Now is the time to lay in your chicken feed.

A pedestrian crank is on the way between Reno and Salt Lake. He claims to be walking 6,000 miles in 118 days on a wager of \$6,000. He will be in Reno about the time the circus arrives.

Jim Farrell writes from Canada that the prohibition law is in force there and he has to go thirsty all the while. "It is a good thing, however for the country," he adds, "as these bloody Britishers never know when to let go."

Do not fail to take your children to see Sampson, the largest elephant in the world, and let them have a ride, he is capable of accommodating 100 people without any inconvenience whatever. He will be here with Cole's Great Circus—August 16th.

A lady writes: "I have used Ayer's Sarsaparilla in my family for many years, and could not keep house without it. For the relief of the pains consequent upon female weaknesses and irregularities, I consider it without an equal."

The Enterprise cheerfully accounts for the break in Norcross by the breaking of the diamond drill, and accounts for the break in the drill by the end getting tangled up in the native gold and silver until it could not stand the clog.

Carsonites can save money by ordering fruits, produce, poultry, fish and all seasonable goods from H. G. May & Co., Sacramento, Cal. They use great care in selecting and packing orders for families, and their prices are "bed rock." Send for price list. ju 16 tf.

The Paris Figaro has a bitter article declaring that England never helped but always thwarted France. Her friendship is false and the alliance with her hollow. The Figaro advises France to abandon all relations with England, give up her prejudices and hatred and make an alliance with Germany. Germany was an honest enemy; she will prove an honest ally. When it comes to talking of alliance with honest enemies the Figaro's head is level.

"Old Kit."

"Old Kit" as the General is generally known was in Carson yesterday. The war horse, attorney, orator, poet and autocrat had the same imperial tread of Caesar stalking the common earth again, and when he paid up his two years back subscription to the APPEAL it seemed as if he was laying a thousand dollars on the table. He is now practicing law in Modesto, and the town will have at least one good lawyer at its disposal while he is there.

Norcross.

Norcross took a lively tumble yesterday, which either means that the ore has given out or that the insiders dumped the stock to gather in a lot more stock at bed rock. Jack Bunshy is the authority for the above.

Doc. Benton's Livery Stable.

Doc Benton wishes to inform his patrons that, while out of the stage business, he is at the old stand ready to furnish livery teams at the shortest notice. Also deals in ice, delivered to any part of the city, and mineral water.

Draying.

All kinds of light and heavy draying done on easy terms and a shortest notice. JOE CARPENTER

Stevens, the Bicyclist, Reaches Albany.

ALBANY, July 31.—Thomas Stevens, who left San Francisco on a bicycle April 22d, arrived here in good health and suffering no fatigue. He weighs fifteen pounds less than when he started. He averaged sixty miles daily, took notes and will publish a book. He says the roads West of the Mississippi were very heavy and he often walked long distances, but did not ride in cars or wagons. He had not been molested. He saw great numbers of Indians, but they simply gazed at him in wonder. "I saw any number of bears and wolves. The greatest inconvenience West of the Mississippi river was the scarcity of houses, where I could sleep. The roads now run in long stretches parallel with the railroads. I will go to New York or Boston; thence to Liverpool."

Diabolical Work of Strikers.

BRADFORD, PA., August.—The Bradford glass works which shut down recently on account of the strike, resumed yesterday with non-union men. In the afternoon the strikers surrounded the factory, while Fortune Degneaux, the new foreman, and Superintendent McCartney, were inside, and began throwing stones. McCartney escaped but Degneaux was captured and his eyes gouged out to prevent him doing any more work. There is great excitement tonight and it is feared the strikers will burn the factory and other buildings of the company.

Colored Tragedians Try "Othello."

NEW YORK, July 31.—"Othello" was played last night by the Astor Place Company of colored tragedians. The journals make all manner of fun of the performance. The Tribune ends its criticism thus: "It is a question, however, whether such travesty of a noble play is not productive of more harm than genuine amusement."

An Irish Libel Suit.

BELFAST, August 1.—The libel suit by Boldon, prosecutor for the Crown against Wm. O'Brien, editor of the Dublin United Ireland, is concluded by a verdict for plaintiff, giving him £3,000.

Not Worth Savina.

MARSEILLES, August 1.—The lower classes dislike and oppose physicians because they have taken the notion that the physicians have been instructed to help the cholera along in order to get rid of the surplus population.

The Marionettes.

This clever performance of puppets will be here on the 6th of this month. The Glasgow Herald says: "A delightful Marionette entertainment, manipulated with surprising cleverness. The fun was greatly enjoyed, and the audience testified their appreciation by frequent and warm applause. The singing was of a superior description, the songs being rendered with taste and feeling, which called forth expressions of admiration from all parts of the house. The Marionettes are well worthy of a visit."

To Whom it May Concern.

An editorial paragraph, which appeared in yesterday's APPEAL to the effect that all the leading papers in New York were opposing Blaine, etc., was hung on the editorial hook by some unknown person while the editor was absent from the sanctum. The party who did it supposing that he was perpetrating a joke will in future have the good sense to keep out of the editorial room until he has learned sufficient sense to know how to conduct himself when upon other people's premises.

Origin of Ammonia

Ammonia is obtained in large quantities by the putrefaction of the urine of animals.—Encyclopedia Britannica.

Every housekeeper can test baking powders containing this disgusting drug by placing a can of the "Royal" or "Andrews' Pearl" top down on a hot stove until heated, then remove the cover and smell.

Dr. Price's Cream Baking Powder does not contain Ammonia, Alum, Lime, Potash, Bone Phosphates. Prove it by the above test. It is prepared by a Physician and Chemist with special regard to cleanliness and healthfulness.

Eclipse Extra Dry is the only native Champagne equal to any imported, and but half the price.
